About Crystal Lagoons

San Alfonso del Mar - Chile

Crystal Lagoons, a leader in innovation and technology, has developed proprietary and patented pioneering sustainable technology.

As a technology company at our core, we provide a license to our Intellectual and Industrial Property and to our proprietary water quality services, protected as trade secrets. We have secured worldwide protection and are continuously developing new solutions.

OUR STORY

Crystal Lagoons founder Fernando Fischmann dreamed of having an idyllic beach with turquoise water akin to the Caribbean at the center of his real estate development, San Alfonso del Mar.

THE PROBLEM

No technology existed that would allow him to build a large artificial waterbody and maintain it at high transparency levels.

THE SOLUTION

Fernando Fischmann developed and patented a state-of-the-art concept and technology that allows crystalline lagoons of unlimited sizes to be built and maintained at very low cost anywhere in the world.

NOW

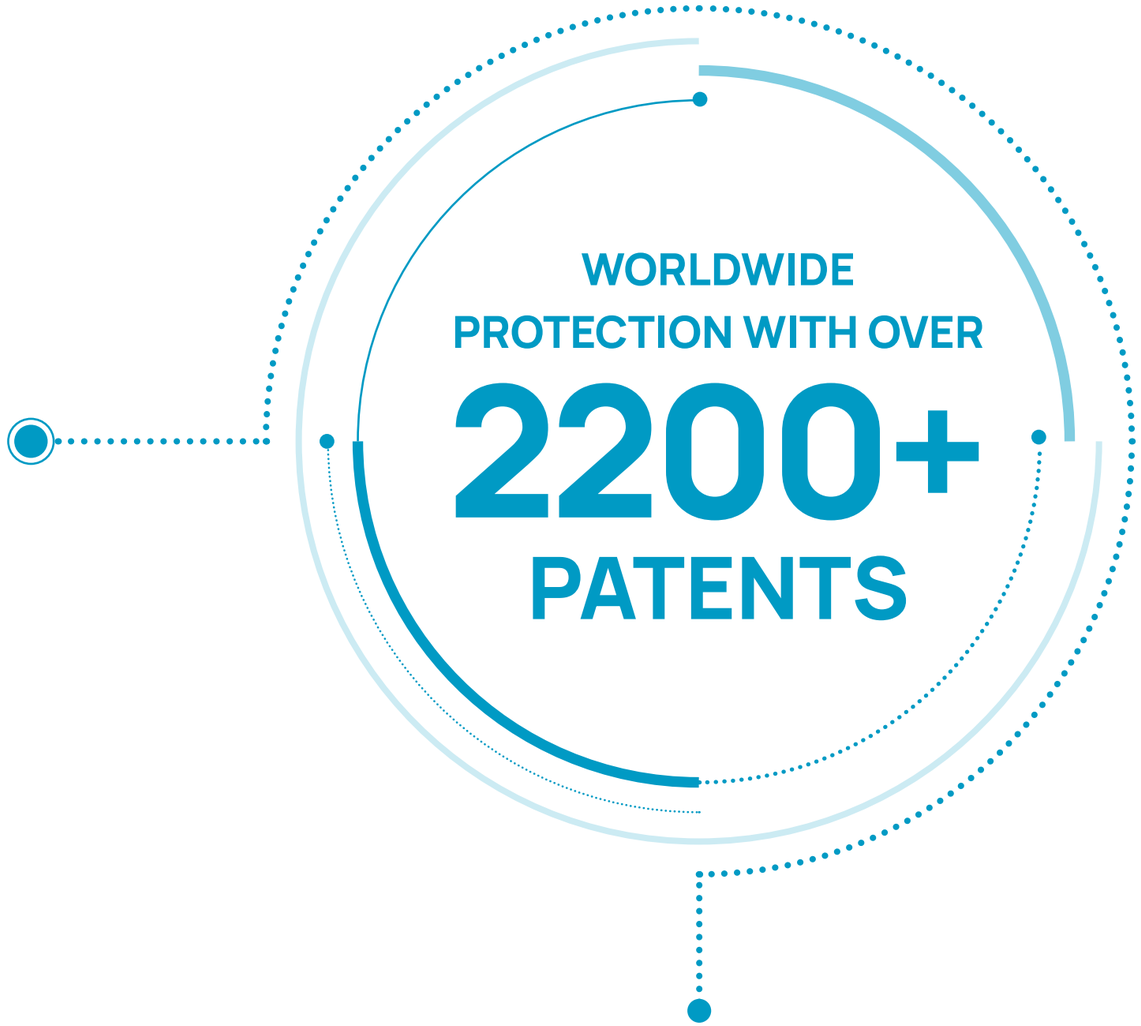

Crystal Lagoons is a multi-national company with over 2,200 patents in 135 countries and over 1,000 projects in different stages across the globe. Its signature turquoise water lagoons surrounded by palm trees and white sandy beaches are transforming cities worldwide into tropical paradises.

The Technology

Crystal Lagoons is a world leader in innovation and technology with over 10 years of experience.

We have developed and patented a concept and technology that allows developers to build and maintain crystalline lagoons of unlimited size at very low cost anywhere in the world. By licensing the Crystal Lagoons® System and related intellectual property, consisting of patents, trademarks, trade secrets, copyrights, trade dress, and proprietary know-how, developers are able to include man-made lagoons in their projects and access the many benefits granted by our revolutionary business model and technology.

in over 135 countries, as well as trademarks, trade secrets, trade dress, designs, and copyrights.

Competitive Advantage

1. **Transformation and monetization of underutilized land.**

2. **Low construction and maintenance costs.**

3. **The use of any type of water source (fresh, salt, or brackish) and low water consumption.**

4. **Better cost and resource efficiency vs. other recreational alternatives:**

   - **100x** less chemicals vs. regular pool technology.
   - **2%** of the energy compared to conventional swimming pool technology.
   - **33x** less water consumption than a golf course.
   - **40%** less than a park of the same size.

5. **Revenue and Opportunities:**

   - **Real Estate Projects:** allows early monetization, increases sales premiums and velocity, all thanks to the competitive advantage granted by our World's Top Amenity.
   - **PAL™ Projects:** allows perpetual year-round revenue generation through ticket sales and multiple commercial income generating activities (hotels, events, concerts, retail, F&B, among others).
   - **Small Lagoons by Crystal Lagoons™:** allow real estate and hospitality developers to bring beach life to their projects with lagoons under 0.4 ha/1 ac, at a fraction of the price of swimming pools.

Lago Mar - TX, U.S.

Real Estate Projects

Beachwalk - FL, U.S.

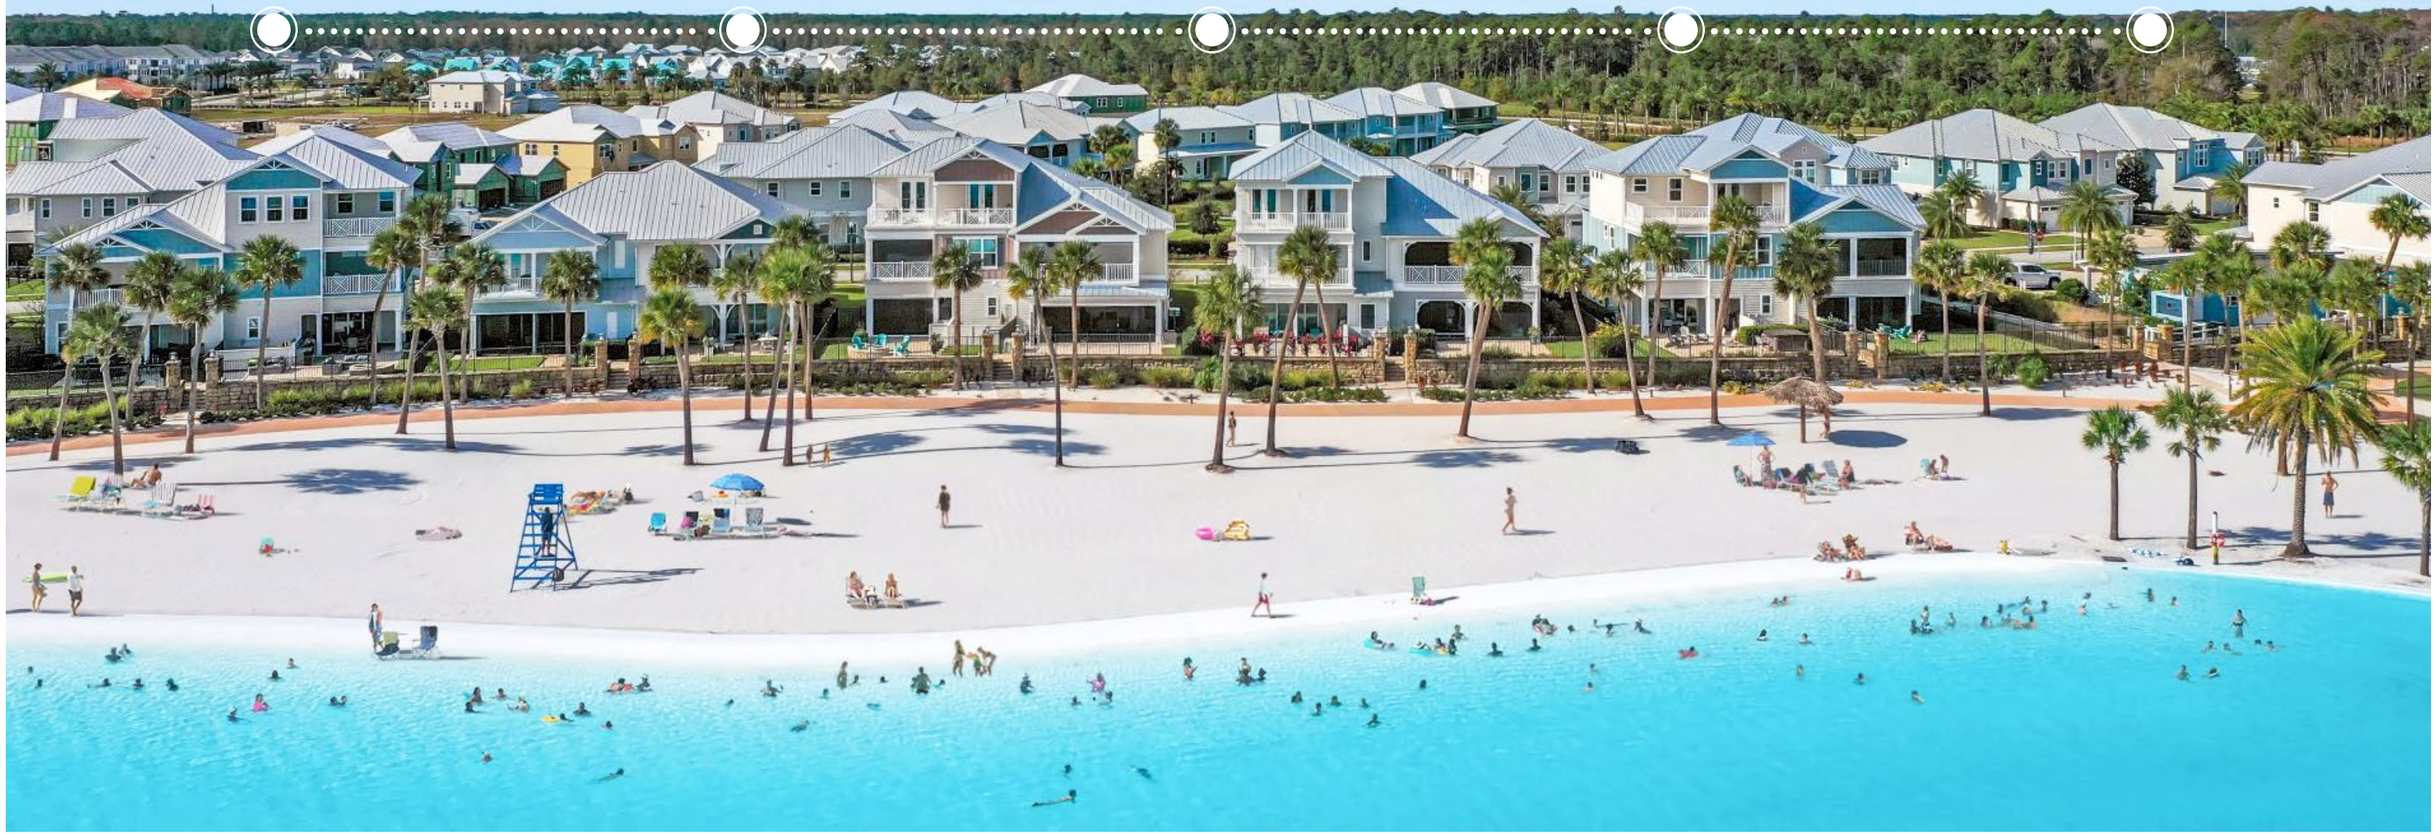

Creates an idyllic beach destination anywhere in the world.

Makes unviable projects feasible by challenging the paradigm of “location, location, location”.

Increase sales price and velocity, adding value like no other amenity.

Increases hotel prices and occupancy.

Provides differentiating edge, reducing competition.

PAL™: The Meeting Point of the 21st Century

Public Access Lagoons™ developments bring turquoise waters and white sandy beaches to the city, generating a new business through ticketed entry to the lagoon and year-round entertainment, including water sports, concerts, weddings, events, trade shows, day clubs, restaurants, retail, and more.

Endless ways to Monetize:

- Entrance & Membership Fees
- Beach: Family, Activities & Entertainment
- Wedding Peninsula™
- Events Esplanade: Corporate Events, Food Halls & Trade Shows
- Amphitheater: Concert & Day Club
- Advertising, Sponsorship & Naming rights
- Restaurants & Retail
- Water Sports & Cabana Rentals

© Crystal Lagoons® 2026. All Rights Reserved. Confidential Information.

Master PAL™ Licenses Available Worldwide

A Master PAL™ Agreement consists of an exclusive partnership with a local partner for the development of multiple Public Access Lagoons™ projects in a region.

Diamante Cabo San Lucas - Mexico

Perpetual Income:

1. Provide an unparalleled setting for year-round activities such as trade shows, events, launches, fairs, food halls, weddings, concerts, day clubs, corporate days, and more both indoor and outdoors.
2. Generate high social impact, reactivating urban infrastructure and generating employment.
3. Provide a long-term investment alternative, with returns never seen in other industries.
4. Quickly generate profits and create a financing pyramid, enabling the creation of a high-value company with low initial investment.
5. Operationally replicable anywhere in the world.
6. Create a business with high profitability based on massive public access with ticketed entry to the beach as well commercial usage, naming rights, and leasing of areas facing the lagoon.

Small Lagoons by Crystal Lagoons™

Small Lagoons by Crystal Lagoons™ is a breakthrough sustainable product. This innovative, patented concept and technology offers real estate and hospitality developers a way to bring a unique idyllic beach-life experience to their projects. With models ranging from 5,400 sq ft to 1 acre (500 m² to 4,000 m²), **Small Lagoons by Crystal Lagoons™** offer a much better experience at a fraction of the construction and maintenance cost of traditional commercial swimming pools.

Crystal Lagoons offers standardized **Small Lagoons by Crystal Lagoons™** models that reduce design time, simplify permitting, and accelerate implementation while delivering all the same benefits of our large-scale lagoons.

With technology inspired by nature, **Small Lagoons by Crystal Lagoons™** are revolutionizing the commercial swimming pool industry with patented ultrasound flocculation technology that avoids filtering the entire body of water, significantly reducing the energy and equipment required.

Surrounded by white sand beaches and entertainment, **Small Lagoons by Crystal Lagoons™** are more than a pool, they're a destination. From swimming to water sports, developers can recreate beach life and activate every inch, attracting visitors, increasing sales, and generating additional revenue from activities around the lagoon. Additionally, with **Eco-Heated Lagoons by Crystal Lagoons™** technology it is possible to heat the lagoons with data centers or crypto-mining and offer warm temperatures year-round, without additional using additional energy.

Much Better than a Commercial Pool, at a Fraction of the Cost

Low Construction Cost

Small Lagoons by Crystal Lagoons™ are **significantly less expensive to build** than a commercial pool of the same size.

Low Maintenance Costs

The maintenance cost of Small Lagoons by Crystal Lagoons™ are **up to one-third that of traditional commercial pools.**

Minimal Equipment Replacement Cost

In commercial pools, **an important part** of total costs are due to hydraulic equipment replacement.

Small Lagoons by Crystal Lagoons™ have **negligible hydraulic equipment replacement costs.**

Different Sizes for Any Project

Referential image of Small Lagoons by Crystal Lagoons™.

Available in the following sizes:

- NEW 5,400 sq ft / 500 m²
- 0.25 acres / 1,000 m²
- 0.5 acres / 2,000 m²
- 0.75 acres / 3,000 m²
- 1 acre / 4,000 m²

Our Services

What Crystal Lagoons does:

Pre Start-Up of the Lagoon:

Technical Assistance for:
- **Design of the Lagoon**
- **Implementation of the technology**
- **Visits during construction phase**

Including:

Masterplan and Zero Geometry: Masterplan proposal that defines all aesthetic design elements and distinctive forms of the Lagoon, including its geometry, contours, depth and ground slope. After this is finalized, a signed approval from the Developer is required to proceed to the Engineering stage.

DCP: The Design Criteria Package includes the technical specifications, recommendations and guidelines regarding pipe connections, filtration systems and other structural and electrical design aspects of the Lagoon.

Ongoing Marketing and PR support to help clients promote their Crystal Lagoons® amenities.

The Marketing department provides:
- **Welcome Pack with various materials such as photos, videos, documents, manuals, and logos**
- **Guidance on how to correctly apply them.**

Right to use Crystal Lagoons brand assets and Trademarks when promoting project, yielding higher sales speeds and premiums.

Post Start-Up of the Lagoon:

Maintenance guidance and supervision, routine and emergency operation visits

Training of local staff and maintenance personnel

24/7 telemetric operation system managed online by the Crystal Lagoons Control Center. The application of additives is determined electronically by injectors and sensors strategically located in the Lagoon reporting the physio-chemical properties of the water

Access to new developments and improvements during the life of the license

Access to proprietary equipment

© Crystal Lagoons® 2026. All Rights Reserved. Confidential Information.

Crystal Lagoons
Proprietary Equipment & Additives

Santa Rosalia - Spain

Equipment:

Patent Protected Bottom Cleaning Suction Cart

Proprietary Modular Treatment System (machinery and pumping system)

Crystal Lagoons Customized Liner (bottom membrane for the lagoon)

Exclusive Ultrasound Equipment

Beach Coating (minimizing slippery entrances to the water)

Proprietary Telemetry System (remote parameter monitoring and control)

Additives:

Access to Crystal Lagoons Proprietary Additives (exclusive for our licensees)

© Crystal Lagoons® 2026. All Rights Reserved. Confidential Information.

Access to New Developments & Improvements

Our R&D department is continuously coming up with new solutions and improvements to our technology.

Examples of our latest innovations and improvements:

1 **Boat dragged suction cart**

2 **Machine Room for pumps and machinery**

3 **New technologies for winter use:**

Eco-Heated lagoons warmed year-round with no energy, using waste-heat generated by data centers.

© Crystal Lagoons® 2026. All Rights Reserved. Confidential Information.

Technology License and Support Agreement (TLSA)

The TLSA is a limited license for the project to access the Crystal Lagoons System consisting of patented technology, trademarks, copyrights, trade dress, designs, proprietary equipment and additives, and know-how for a specific lagoon type and intended use.

Process to Signature:

1. **Concept Design:** Conceptual layout of the Lagoon and its surroundings containing a preliminary estimate costs of construction and operation.
2. **Economic Proposal:** a proposal for the technology licensing fee and applicable royalty based on the type of development.
3. **Technology Licensing and Support Agreement:** Preparation of the contract with agreed-upon economic terms.
4. **Project Commencement:** Following the execution of the TLSA and payment of initial fee.

Crystal Lagoons Deliverables:

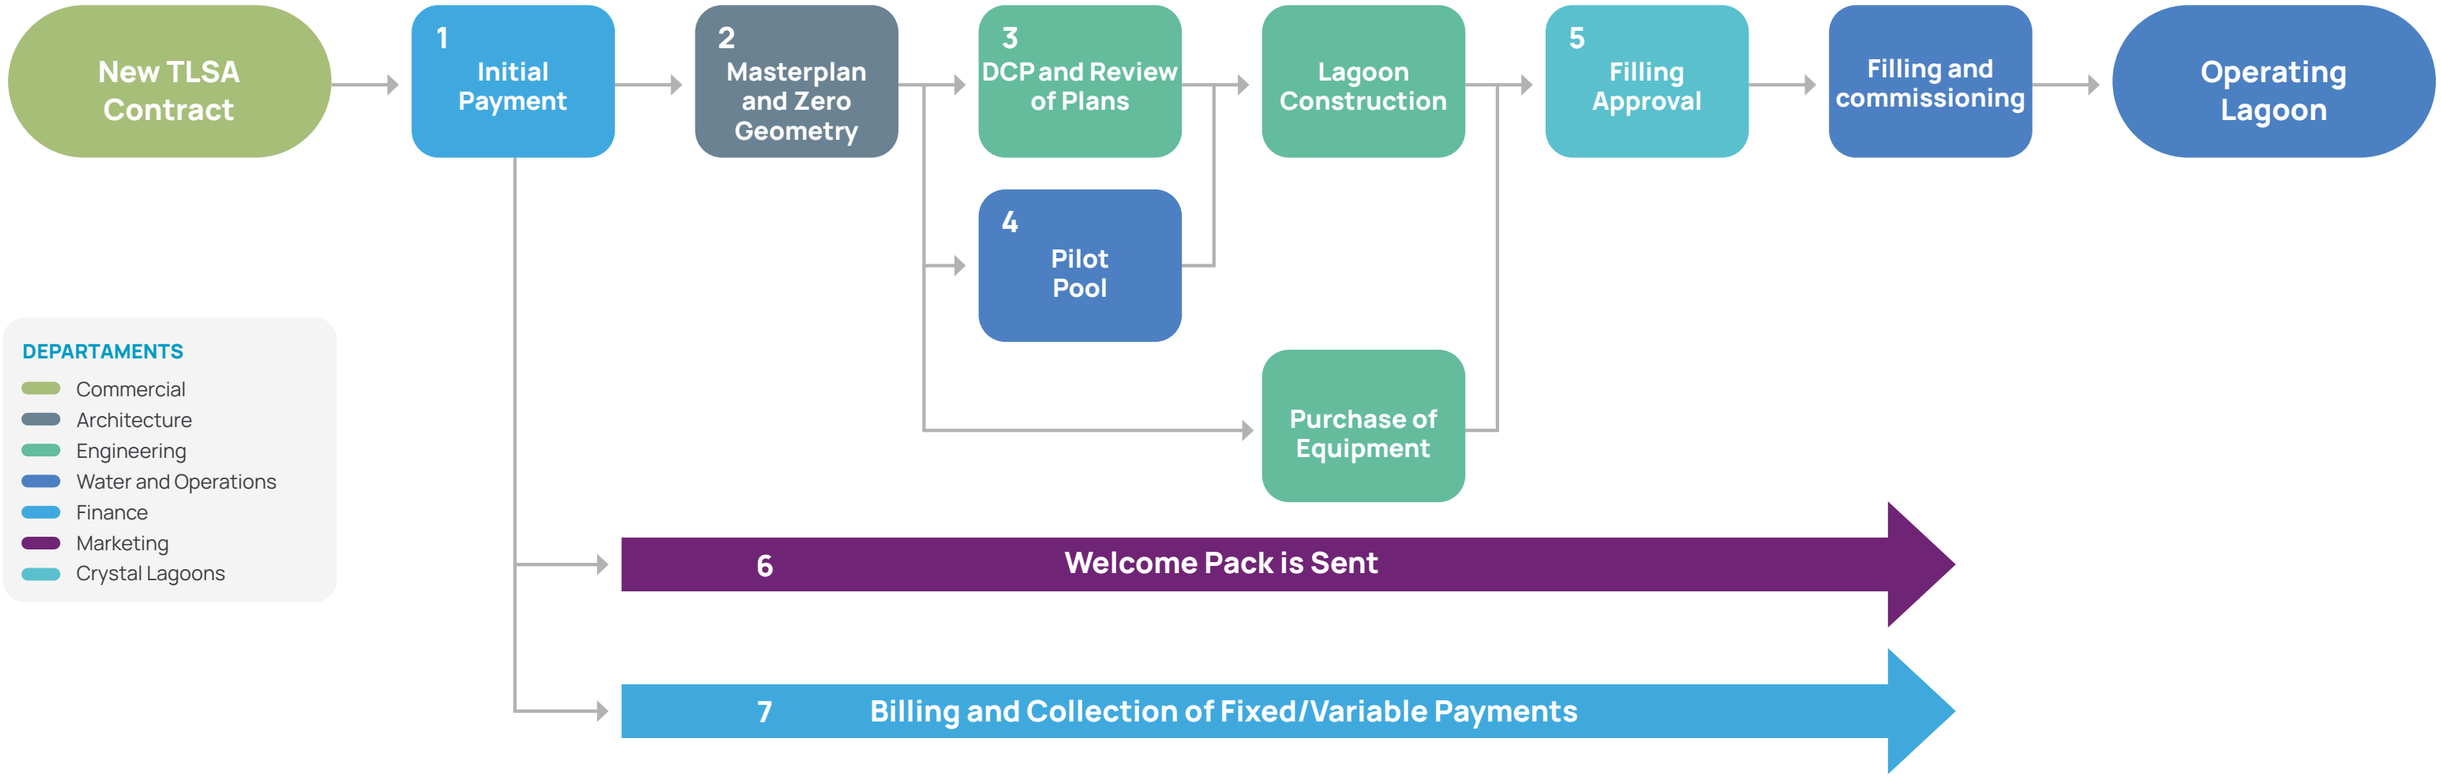

- **Concept Design**
- **Zero Geometry**
- **Design Criteria Package**
- **Pilot Testing**
- **Lagoon Filling Approval**
- **Site Visits**
- **Monitoring Reports**

Solanas - Uruguay

Process and Next Steps

Crystal Lagoons Project Development Process

1. Initial Payment

The Developer must complete the Initial Payment in order for Crystal Lagoons to provide technical assistance to the Project and enable the use of the Crystal Lagoons brand.

2. Masterplan & Zero Geometry

Masterplan proposal that defines all aesthetic design elements and distinctive forms of the Lagoon, including its geometry, contours, depth and ground slope. After this is finalized, a signed approval from the Developer is required to proceed to the Engineering stage.

3. DCP & Review of Plans

The Design Criteria Package includes the technical specifications, recommendations and guidelines regarding pipe connections, filtration systems and other structural and electrical design aspects of the Lagoon.

4. Pilot Pool

Processes and procedures for sampling, analysis, evaluation, and testing that must be carried out and completed in order to confirm the quality of the water source for the Lagoon.

5. Filling Approval

It is essential that the Developer receives a written confirmation from Crystal Lagoons approving the filling of the Lagoon before starting this process.

6. Welcome Pack

Brand book, brand manual and other materials, such as photos, videos, logos, and more.

7. Payments

In the event that the Developer has payment to Crystal Lagoons that are overdue, technical assistance will be suspended until this situation is resolved.

TLSA Fees

Evermore - FL, U.S.

The License Fees:

Initial Payment

- Technical assistance
- Brand and trademarks usage

PAL™ & Real Estate Royalties

(fixed fee option for real estate projects)

Crystal Lagoons Systems Fee (monthly telemetry fee)

- Operations visits and monthly reports
- Telemetry system and additive dosing

© Crystal Lagoons® 2026. All Rights Reserved. Confidential Information.

PAL™ Access and Payment Control Systems:

Diamante Cabo San Lucas - Mexico

One control account for PAL™ royalties generated in publics access areas allows for optimized project revenue monitoring.

Neutral third party that receives the income from entrance fees and other activities automatically transferring to developer and Crystal Lagoons the respective share based on the TLSA fees.

Benefits:

1. Get real time, honest records of revenues received with fully customizable reports
2. Collect data and learn about your customers and their purchases
3. Create targeted activations and promotions
4. Market to crossover audiences
5. Identify and reward the most loyal customers
6. Get full control over all sales channels, selling tickets however and wherever you like
7. Prevent fraud and accept payments from around the world

What We Need from You

Economic Proposal - MOU Phase

- NDA and KYC / CIF (Customer Information Form)

TLSA Phase

- Legal, commercial, and technical review of the agreement

Design Phase

- Preliminary water analysis for Pilot Pool test
- Information for DCP
- Engagement of architecture firm, revision and collaboration with Crystal Lagoons over final design

Contruction Phase

- Engagement of construction firm and coordination of technical visits

Operation and Maintenace Phase

- Purchase of additives of Equipment (Modular Treatment System, Suction Carts and Additives)
- 24/7 internet for telemetry
- Photographic reports of the water's color
- Maintenance of equipment, and operation of the lagoon following Crystal Lagoons instructions

Ongoing

- To comply with the Crystal Lagoons System guidelines and written instructions
- Maintain adequate staffing and insurance
- Provide Crystal Lagoons with up-to-date information

© Crystal Lagoons® 2026. All Rights Reserved. Confidential Information.
